

3.6 Investing in Funds

Student Activity Packet

UNIT: INVESTING

Name:

Students will be able to:

- Understand what a fund is and how investing in one can create a more diversified investment portfolio
- Explain the difference between active investing and passive investing
- Arrange companies to create a diversified mutual fund

NOTE: Vocabulary for this unit can be found in the NGPF Personal Finance Dictionary

PROMPT:

Use the space below to answer the prompt.

1. Imagine you're buying a dozen donuts for you and your friends. Would you buy all 12 in the same flavor? Or would you buy a box that has a variety of flavors? Why?

ARTICLE: What is a Fund?

In the same way that you'd likely buy a box of donuts with a variety of flavors, it's a good strategy to invest in a variety of stocks so that you can minimize risk. While you can individually pick stocks and manage them yourself, most people buy shares of funds that have a collection of stocks. Read through this article, starting from How Do Funds Work?, to learn about funds. Then, answer the questions.

1. In your own words, describe how investing in a fund is a more diversified approach than investing in a single stock or bond.

> Last updated: 1/9/23 www.ngpf.org

- 2. Take a Guess: Amita wants to invest in a fund *and* choose a few individual stocks and bonds to invest in. Is she allowed to do this? Or, does she have to choose one or the other?
- 3. What question(s) about funds do you have now that you've seen the variety of fund options available to you?

VIDEO: What is Active and Passive Investing?

In the previous article we learned that some funds are actively managed by a fund manager while other funds are not. Watch this video to learn about the difference between active investing and passive investing. Then, answer the questions.

1. Fill in the table below about passive investing and active investing.

	Passive Investing	Active Investing
Who manages the fund?		
Fees (circle one):	Lower	Lower
	Higher	Higher
Return: The goal is to (circle one):	Outperform the market	Outperform the market
	Match the return of the market	Match the return of the market
Lower or higher risk?		

2. Do you think you would want to invest in a passively managed fund or an actively managed one? Why?

圃

ACTIVITY: MOVE: Let's Make a Mutual Fund

Let's take a closer look at how funds work and why they are a more diversified approach to investing when compared to picking individual stocks. Follow the directions on the worksheet to complete this activity.

Follow your teacher's directions to complete the Exit Ticket.
